

# HRM SAAS Post Installation

Human Resource Management (HRM) Software as a Service (SaaS) is a cloud-based application that automates various HR processes such as payroll, benefits administration, recruitment, and performance management. The software provides a centralized platform for storing and managing employee information and enables HR teams to streamline HR operations, reduce manual work, and improve decision-making.

After installation, the HRM SaaS software should come with detailed documentation that explains how to use the software effectively and efficiently. The documentation should include the following:

### Login Path:

**Super Admin:** [saas.yourdomain.com/admin](https://saas.yourdomain.com/admin)

**Admin (Company):** [saas.yourdomain.com/login](https://saas.yourdomain.com/login) [For Company & Subscription Management]

**HRM (Company):** [hrm.yourdomain.com/sign-in](https://hrm.yourdomain.com/sign-in) [For HRM Access]

[domain may change according to your preference]

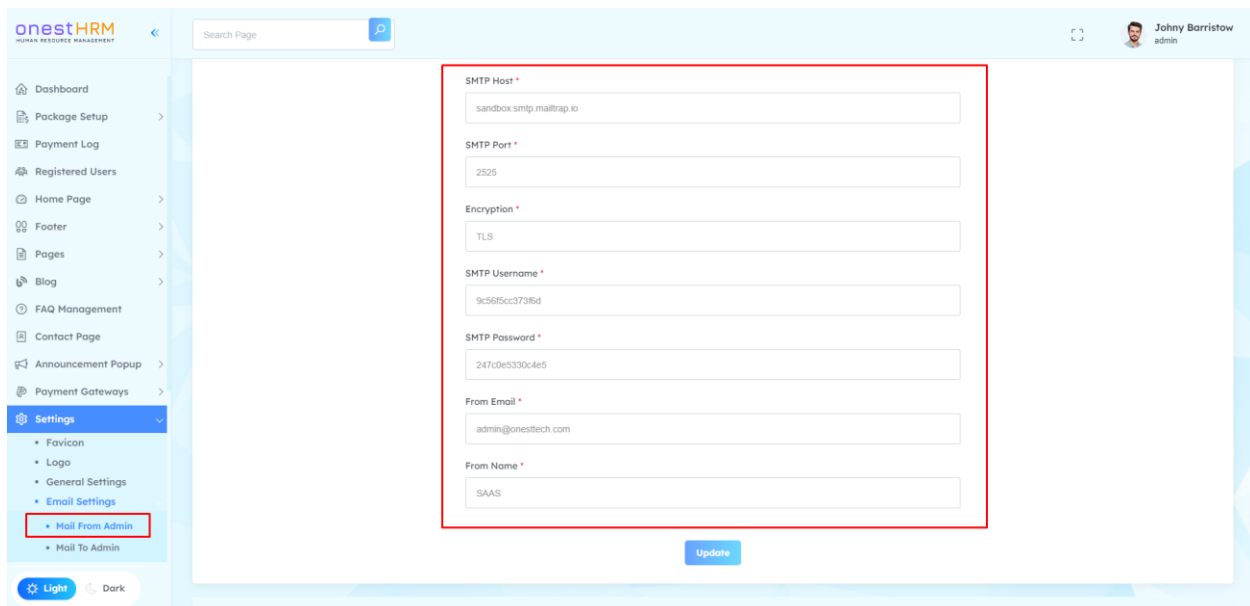

### First, you have to configure email SMTP from Admin

**Super Admin:** [saas.yourdomain.com/admin](https://saas.yourdomain.com/admin)

#### Super Admin Login Credential:

Username: [admin](#)

Password: 12345678

The screenshot displays the 'Mail From Admin' configuration page in the onestHRM admin dashboard. The page features a sidebar with navigation options, a search bar, and a user profile for Johnny Barristow. The main content area contains a form for configuring SMTP settings, which is highlighted with a red border. The form fields are as follows:

Field	Value
SMTP Host *	sandbox.smtp.mailtrap.io
SMTP Port *	2525
Encryption *	TLS
SMTP Username *	9c56f5cc3738fd
SMTP Password *	247c0e5330c4e5
From Email *	admin@onestech.com
From Name *	SAAS

An 'Update' button is located at the bottom right of the form.

[ N.B. Without an email setup, you won't get a company or user verification code.]

After That, you have to set up your Payment Gateway.

We have a test stripe account:
